Professional Summary

Software Engineer specialized in artificial intelligence with a solid academic background and experience in frontend and full-stack application development. Passionate about creating innovative solutions using modern technologies such as React, Next.js, Node.js, and SQL. With a proven track record of designing and developing intuitive user interfaces, I seek to contribute my skills to a dynamic team and contribute to the success of challenging projects.

Education

National Service for Industrial Work Training (Senati)

2023 - 2025

Software Engineer with Artificial Intelligence

Independencia, Lima

Project Management 101: PMP Certification

Link: [PMP Certification](#)

Technical Proficiencies

Frontend: React, NextJs, TypeScript, Shadcn, TailwindCSS, HTML, CSS, JavaScript, Vite, Figma

Backend: NodeJS, Python, Express, TypeScript, PHP, Postman

Databases: SQL Server, MySQL, PostgreSQL, SQLite, MongoDB

AI/ML: PyTorch, Scikit-learn, Langchain, Hugging Face

Others: Git, GitHub, Linux, Docker, Notion, Discord, Microsoft Office, Jira, Miro

Languages

Spanish (Native), English (Intermediate - Advanced)

Experience

Stunning | Frontend Development

- Developing a SaaS website with a modern and impressive design.
- Implementation of a responsive design for mobile phones, tablets, and computers.
- Technologies: NextJs, React, Tailwind CSS, Motion, version control with Git

Gemini-AI Clone | Frontend Development

- Designed a high-fidelity replica of the Gemini-AI interface, achieving 85% visual and functional similarity, paying attention to details and solving problems.
- Identified and resolved cross-browser compatibility issues, improving site accessibility and usability..
- Technologies: React.js, RESTful APIs, CSS3, version control with Git

RapidGo | Full Stack

- Developing a food ordering platform with advanced functionalities
- Features: Real-time order tracking, credit card payments, restaurant management system..
- Implemented a real-time order tracking system that reduce customer wait times by 30%.
- Technologies:
 - Front-End: React, Auth0, Tailwind CSS, Shadcn, Vite
 - Back-End: Express, Node.js, MongoDB, TypeScript

Soft Skills

- Strong problem-solving and debugging skills.
- Excellent communication and teamwork skills.
- High adaptability and continuous learning capacity.
- Critical thinking and informed decision-making.
- Efficient time management and organization.
